

## Camera Bag for Sale

Dimensions: 17"x 12" x8"

This is an excellent bag, sturdy and very well made of heavy waterproof canvas. It is designed to be used as a backpack, with two heavy duty straps - shoulder and waist. I found the straps cumbersome and cut them off and much prefer to use the handle for carrying. There is nothing wrong with the bag; I purchased the larger version. [You can see the ad for the larger version on the B&H web site} Both sizes are now discontinued.

Several partitions hold 2 cameras, lenses and other accessories. Two interior pockets and a large exterior pocket are for flat materials (including laptop, IPAD, etc.

Will bring to Tuesday group meeting and the monthly meeting for inspection.

In undamaged condition. Originally \$99 new. Asking \$25
