

PRICE REDICED! FOR SALE: Panasonic DMC-Z2500 "bridge" camera, 20.1 Mp, 1" sensor, 24-480 zoom (non-removable lens), f2.8-4.5, 4K pro video, electronic viewfinder, much more. In brief, this camera does it all, beautifully. It appears at the top or close it as the best bridge camera of 2017: read the reviews for more. Comes with neck strap, lens hood, lens cap, battery and charger, to which I am adding two more batteries, a 128 Gb card, and a circular pol filter. Possible three-year extended warranty. This is essentially a brand-new camera. Purchased June 2017 from B&H. \$875 Firm. Will gladly let a club member try it out. I am selling this camera because it is simply too much camera for this old B&W film photographer. Al Lockwood---828-513-1380---mossbloomstudio@gmail.com
