

## The Camera Club of Hendersonville

Steering Committee: Rich DeSimone, Chair Mike Raney, Treasurer John Ayre, At Large  
Paul Doeblner, Secretary Bob Coffey, Program Chairman  
Newsletter by Ron Anderson

### July 2013

#### June Meeting

We had our annual print contest with prints scored by our members. The winning photos are included in this newsletter.

#### July Meeting

Our meeting is early this month since the first Tuesday was July 2. The 4<sup>th</sup> Tuesday falls on the 23<sup>rd</sup>. The meeting is a forum, special topic portraits/candids. For the rules please go to our web site [www.cameraclubofhendersonville.com](http://www.cameraclubofhendersonville.com)

On the main page click on the Forums button and scroll on down to the bottom of the page and click on the link to the forum rules.

We have had very few prints lately but if you have one, please note that fact when you send the image to Peter for the presentation that he will prepare. Peter always sends a copy of that show to our critic on Sunday so he/she will have some time to look at the images before the meeting. The deadline is therefore Saturday the 20<sup>th</sup> at midnight.

The rules say to bring prints to Blue Ribbon Framing on Kanuga at the place where it makes a turn. The folks there may be surprised that you are bringing a print. Tell them that Peter will pick them up on Saturday about 4 PM. Note that as the deadline for a print.

Our critic for this forum is Rob Travis. Rob is a member of Land of Waterfalls Camera Club in Brevard. He was the winner of the contest held last Fall by the Times News, which published several of his images in addition to the winning one.

Rob has been published numerous times in WNC Magazine, Blue Ridge Country, Views Magazine, and the Laurel of Asheville.

Here is a link to his photo essay in Blue Ridge Country Magazine, Jul/Aug 2013!

You will see one image. Just scroll down to see the others.

#### August Meeting

The August meeting will be a Show & Tell. Last year we tried a "before and after" format for one of these. The idea went over well so the committee has decided to do it again this time. That is, show the original image and the image after editing. In order not to infringe on the speakers' time, we may have to limit each person to 2 images ( actually 4, 2 before, 2 after) rather than 3. This will be up to Peter, depending on the submissions.

The show and tell will be followed by a presentation on printmaking by Bob Coffey and Joe Bester.

Night Blooming Cereus First Place Bob Coffey

Tranquility Third Place John Ayre

Reddish Egret Walking on Water Fourth Place Walt Beaumont

Violin and Rose Second Place Judy Tuthill

Lighting the Way Fifth Place John Ayre

## **September Meeting**

There will be two presentations by members. Ken Weitzen will discuss macro photography and how he captures his beautiful images. Ken will have a lot of images for us to enjoy.

I (Ron Anderson) will discuss the relationships between depth of field, lens focal length and F/stop. In working through the subject applying a little geometry and Newton's lens formula I've discovered some interesting facts. I'll have some sample images to illustrate the relationships and several "rules of thumb", some of which I've just discovered. I'll also have some things to say and illustrate about perspective vs focal length.

### **Email Address?**

The last two mailings I've sent out to club members had one bounce. Apparently Tricia West has changed her Email address. Does anyone in the club know her new address? If so, contact me [ronwande@bellsouth.net](mailto:ronwande@bellsouth.net) and if you change your address please let us know. You can send me an Email and I will see that Mike Raney gets the update since he maintains the membership list.

### **Bylaws**

The steering committee has been working on a revision of the club bylaws. The present ones are on our web site. When they are done I will send out a copy via Email so you can look them over. After you have had a chance to look at them we will vote on adopting them at the meeting following their distribution.
