July Forum

Thank you Rob Travis for doing an excellent job with the critique of our efforts presented in the July Forum!

I am including some of the images from the forum in this issue of the newsletter. As usual it will be difficult to choose from among all the very good images.

Attached Items

The steering committee has been hard at work and have a revised Bylaws document. They have asked that it be sent with this newsletter. Please read it over. The club will vote on adopting this document at the September meeting.

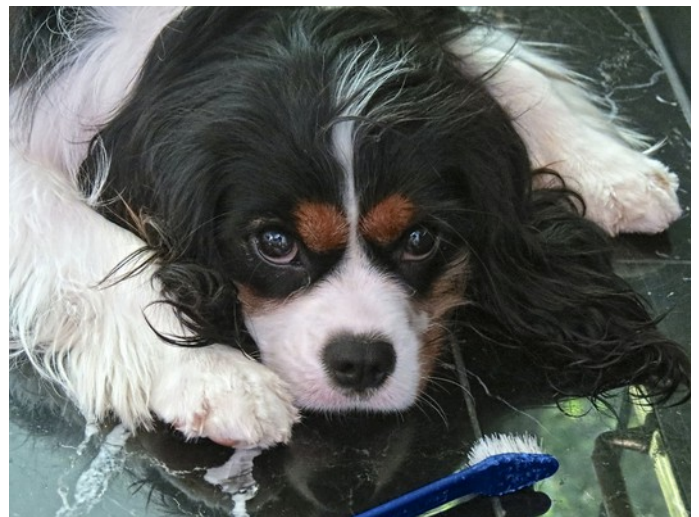

Also attached is a new “Rules” for Forum and Show and Tell image submission. Note the request to rename your submitted files with the appropriate information. This will ease the job for our forum and show and tell coordinator, currently Peter Jones.

August Meeting

Our August meeting will be two parts, a show and tell with the theme of “Before and After” for which members are to submit up to 3 pair of “before and after” images. Each is to be an as shot image and a processed image. Processing includes cropping and

editing via Photoshop or Elements or whatever image editor you choose to use. You may include more than two versions of an image if you think that intermediate steps will be informative for the other members. However, the total number of images should be limited to 6. It would be helpful if you use the new Rules information for renaming your images. Remember to rank your images 1 -3 for showing.

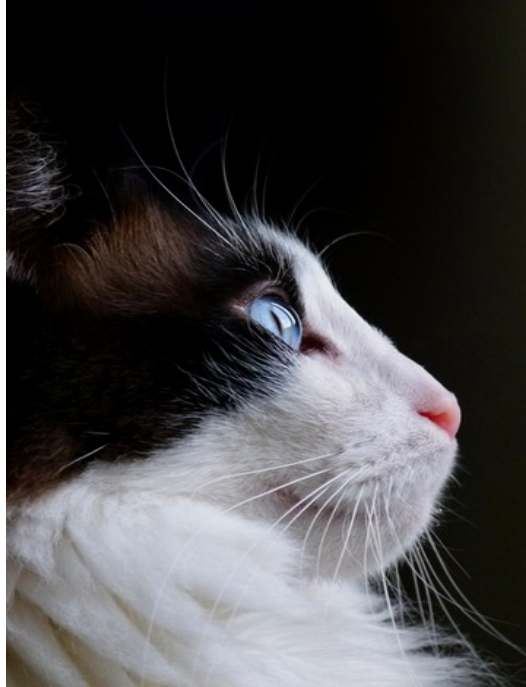

Second half of the meeting will be a presentation by Bob Coffey and Joe Bester, “Prints; Make Your Own or Buy”. Both are expert printers!
